A pattern of partnership

Almost 10 years ago, founders David Morken & Henry Kaestner established a partnership based on loyalty, honesty, mutual respect and a desire to win. Today, that *pattern of partnership* is what makes **Bandwidth.com** the chosen voice & data partner of some of the most ambitious companies in the world.

Growth & Stability

- The #1 fastest growing telecom company in the US for 3 years running *(Inc. 500)*

- The 4th fastest growing privately held company in the US *('02 to '07)*

- Triangle Business Journal Fast 50 *('07, '08)*, Deloitte Technology Fast 500 *(2007)*

- Profitable, cash-flow positive, and no long-term debt

Example Customers

180% Growth in Customers
(~1500 customers on 1/1/06 to >5000 customers as of 7/31/2009)

BandwidthCLEC Next-generation network.

- Nationwide (US) CLEC footprint

- Purpose-built for VoIP, with latest technology

- 2.4 billion minutes (run-rate) today; estimated 4 billion minutes in 2009

- Debt-free build-out; no legacy traffic

- Separate Signaling and Audio Facilities for reliability and route flexibility

- Full geographic redundancy with many routing options

Jonathan "Mitch" Mitchell, CEO of the Bandwidth.com CLEC, is responsible for overseeing all aspects of the company's national VoIP network. Mitch is an inventor on the "Voice over data telecommunications network architecture (SoftSwitch)" patent.
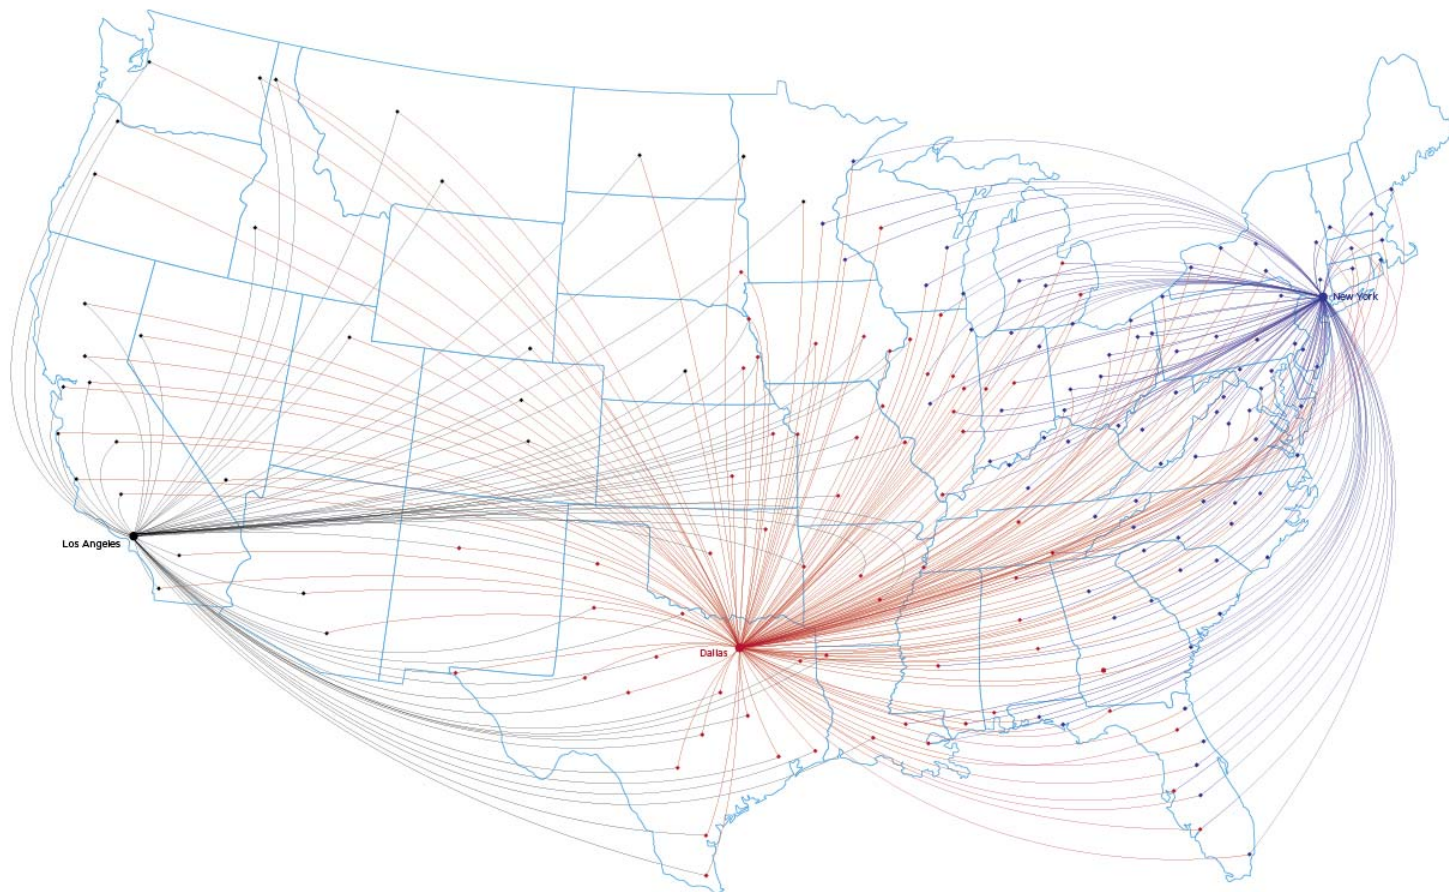

Nationwide coverage.

Dark Blue: Complete
Light Blue: In process
Information accurate as of 06/2009

Built for quality & redundancy.

T.R. Missner, CTO, brings over 20 years of network and software engineering experience to Bandwidth.com including over 10 years working with Voice over IP.

Innovation & open source.

Bandwidth.com is the corporate benefactor of the FreePBX open source project. Through its investments in open source telephony, Bandwidth.com helps drive innovation in both technology and costs that benefits its customers. For example, Phonebooth, Bandwidth.com's low-cost hosted VoIP platform, is built on multiple open source technologies.
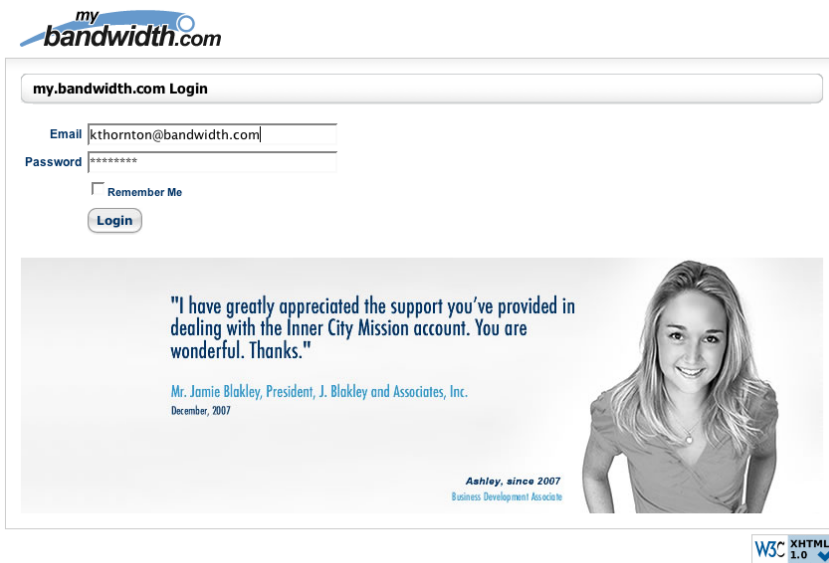

The Bandwidth.com experience.

24x7x365 Customer Support

Bandwidth.com's US customer support center supports customers with:

- 24x7x365 US-based support

- A live person will pick up your call within 3 rings

- Level 1-3 support

- Deep telecommunications experience, ready to help solve business problems

Joe Campbell, V.P. of Operations, brings vision and mission to operational efficiency across all of operations, which sets Bandwidth.com apart from its competitors. Joe is a 14-year veteran of the Telecommunication industry.

Customer Case Study:
GTL makes the switch to VoIP

Challenge: Convert all MCI TDM locations to VoIP… and do it fast

GTL picked Bandwidth.com over AT&T to convert 233 sites from TDM to VoIP in 12 weeks. The project was so successful that Bandwidth.com now manages voice & data for all 608 locations in the US.
